TEACHING MOTHERS TO CARE FOR BABES

Charity Association Doing a
Good Work in Chi-
huahuita.

One of the most interesting and instructive exhibits in the city is that which is now being held at the Woman's Charity association, at the corner of South Stanton and Eighth streets. The exhibit is shown for the purpose of instructing mothers, particularly the Mexican ones, the necessity of the sanitary care of the baby during the summer.

Many ingenious methods of making hammocks out of old gunny sacks, to be used instead of the beds laid on the floor, various ways of keeping food in good condition during the hot weather, and many other valuable hints are given. The association takes care of the children of the mothers who have to work during the day, and also maintains a free hospital.

The hospital is visited daily by Dr. W. C. Kluttz, of the El Paso county Dispensary. At present Miss H. Grace Franklin, who is in charge of the association has under her care 30 children, most of them Mexican, who come for the day, and four boys, who have been dangerously sick. One little fellow, Perfecto, is in the last stages of typhoid and is not expected to live. He was found in one of the adobe houses that line the irrigation ditch, and it was only with greatest difficulty that his parents were induced to take him to the hospital.

Miss Franklin says there are many cases where children who are sick are not taken to the hospital until too late. The expenses of the association are large and any donations would be very much appreciated.

IMMENSE CROPS BUT NO LABORERS

This Is the Complaint of
Ysleta—The Fruit Is
Good.

Ysleta, Texas, June 28.—Laborers are scarcer than ever before in the valley. Crops are abundant and high prices are being paid for labor. Clint people are coming here hunting laborers, and Ysleta farmers are hunting men down toward Clint. If prospects continue as they are this will be the biggest crop year ever known in the valley.

There is an abundance of water in the canal. An experienced fruit buyer of California, who visits the finest orchards in the United States made the statement that J. J. Smith's Bartlett pear orchard, within three miles of Ysleta, is the finest he has ever seen.

Miss Concha Carbajal entertained a number of her friends at an afternoon party. An orchestra played throughout the reception, and food and punch and cake were served. Among other amusements an olla filled with confetti was suspended from a tree, and the guests, blindfolded, took turns in trying to break it. Charlie Caseres succeeded.

Lieut. Rogers of K troop, who has been away on account of illness, will be able to join his troop in six weeks. Mrs. N. M. Gillem was hurt while getting out of her automobile. She is able to be up but is still confined to her room.

Mrs. Revel and Mrs. Gillem have moved into their new bungalow. Floyd Olsen is in from the Hall ranch on the mesa, and reports grass plentiful and cattle fat. A recent rain fell there that amounted almost to a cloudburst, filling all the water tanks.

The Indians have been darning for several days in celebration of the feast of San Juan.

Mrs. Robert F. Cole entertained the Thimble club at her home. Vine cottage, near Ysleta. The reception room and cool, shaded porches were fragrant with bowls of roses and lemon verbena. Refreshments of grape juice, sherbet and angel food cake were served. Those who enjoyed Mrs. Cole's hospitality were Mesdames C. M. Smith, George W. Huffman, John McDonald, F. W. Whitney, A. L. Peterman, Louis Fox, W. D. Landsen and Miss Annie McCall.

**SOLOMONVILLE FARM
LABOR VERY SCARCE**

Solomonville, Ariz., June 28.—The weather has been exceedingly warm for a week past. The hay men are all pleased.

There is a shortage of men to handle the hay crop. The balers and men are all working overtime to save the present cutting.

Mr. and Mrs. Ben Mauer left Monday for an extended trip. They go first to Denver, Colo., then as far east as New York state, and will probably extend their trip to Georgia, returning by way of New Orleans.

The baby daughter of Mr. and Mrs. Grant Robbins is quite sick. Dr. Warner of Safford is treating her.

If you have the itch, don't scratch. It does not cure the trouble and makes the skin bleed. Apply BALLARD'S SNOW EXIMENT. Rub it in gently on the affected parts. It relieves itching instantly and a few applications removes the cause thus performing a permanent cure. Price 25c, 50c and \$1.00 per bottle. Sold by Scott White & Co., 204 Mills, and Depot Pharmacy.
